

## Criteria 2: Expedited Permitting

Please refer to the letters and supplementary materials submitted under Criteria 1: As-of-Right Siting of Renewable or Alternative Research and Development Facilities. Joanne Bissetta, Green Community Coordinator for the Northeast Region, submitted the letters for preliminary review to Kurt Gaertner, MA Executive Office of Energy and Environmental Affairs. We were notified by Ms. Bissetta on July 22, 2010, that the letters would satisfy both Criteria 1 and 2.
