TOWN OF WAYLAND PETITION OF RESIDENTS

In support of Public, Educational & Government Access Community Programming, and "WayCAM"

Comcast Channel 8, 9 and 99 (and Verizon Channels 37, 38 and 39)

We, the undersigned residents of the Town of Wayland hereby express our support for improved and expanded Public, Educational and Government ("PEG") Programming and for our PEG Access provider in Wayland, WayCAM.

We would like to see more PEG Programming, including community events, local news coverage, government meetings, school-wide programming and activities, arts and cultural events, local historical events, youth sports, school athletics, and programs of interest to all residents from youths to seniors.

We recognize and applaud the award-winning achievements of WayCAM's educational program in our schools.

We support increasing video production courses and training for Wayland's residents, high school, middle and elementary school students, improvements in WayCAM's PEG equipment and expansion of its facilities.

We would be willing to support a reasonable increase in Cable TV subscriber fees to improve and expand PEG Access services, training and programming in Wayland, and to achieve the goal of a well run, cost effective, locally based PEG Access operation that continues to provide local media reach to our residents.

We are aware of Section 626 of the Cable Act requires a Cable TV provider seeking to renew its license submit a proposal that is "reasonable to meet the future cable-related community needs and interests, taking into account the cost of meeting such needs and interests."
