

## Ambulance Billing Rates

The Town of Wayland works with an ambulance billing company to send bills to individuals who are treated and transported by the Wayland Fire Department. The amount of the bill varies depending upon the level of pre-hospital care provided, with BLS being the most basic level of service and ALS2 being the highest level.

The ambulance bill will include a fee based upon the level of service provided (see below) and a per mile charge.

If you have a question about an ambulance bill, you should contact Professional Ambulance Service Medical Billing at 617-492-8484.

Revenue received from ambulance billing is deposited into a separate account that has been used by the Town of Wayland to support the general operations of the town and to fund capital purchases made by the fire department.

Ambulances rates are subject to change on a yearly basis.

### **Effective April 1, 2019**

Basic Life Support (BLS)	\$1,700 + mileage*
Advanced Life Support (ALS1)	\$2,200 + mileage*
Advanced Life Support (ALS2)	\$2,900 + mileage*
Mileage Charge Per Mile	\$40*

\*The mileage charge is per road mile from the location of the patient pick-up to the hospital.
