Re: Old Wayland Sanitary Landfill
Inspection Schedule

Dear Mr. Maddox:

This is to confirm our telephone conversation of this morning. In our report to the Wayland Road Commissioners of October 23, 1980, we indicated a check list of items to be completed next spring, to finish off the closure of the Town's old landfill site on the south side of Route 20.

Some site settlement and stabilization should be allowed to occur during the upcoming winter months. We suggest that our monthly inspection schedule at this site be suspended until March or April of 1981, when any corrective work should be undertaken. We will not be sending any further monthly reports until that time, unless notified otherwise by either the D,E.Q.E. or the Town.

Very truly yours,

CLEVERDON, VARNEY & PIKE, INC.
