

## **STATEMENT FROM 15 JULY 2014 MEETING**

**Over the past few months, the Board of Selectmen and the Wastewater Management District Commission have worked hard to resolve outstanding issues related to the cost of building and operating the Town's new wastewater treatment plant. The Selectmen remain committed to a solution that addresses the interests of all taxpayers--residential users, commercial users and non-users alike. The WWMDC is likewise committed to fair treatment of all residential and commercial users of its system. Unfortunately, there is no simple solution and we ask for your forbearance as we continue to work toward a resolution.**
